A Home Investment by a Home Investor

Is what is required to build ap a magnificent city. Each one in any good little town has the opportunity to contribute his "mite" in some way to lay the foundation for his own wealth and the wealth of the city wherein he resides. By doing this with a will and with what little capital he can accumulate by his efforts, he or she is paving the way to peace and presperity, or that which all fair minded men have the right to crave. It is a well known fact that no one can own or build a home unless by some special effort to do so at some time in life, and it is also a well known fact that there are many in every city and town who from year to year continuously pay rent to the landlord which ought to go toward paying for his own home, and where valuation of property is steadily increasing, and, therefore, will have lost the increase in the valuation of property, and will in time pay out enough in rent to have bought the house in which he resides. If this happens to be your case, we wish to make the statement that we are in the HOME IN-VESTMENT business here in Globe and are davoting our time to running an information department for the best bargains in lots and homes to be found in our city. We have no agents to induce you to buy, but are willing to let your judgment be our salesman after you have inspect ed the bargains we offer. We have sev eral fine offers in lots and homes for sale. Are you wishing to place your rent money on your own home? If so, give us a call. 288 BROAD STREET, TELEPHONE 2801.
